TO ALL WURLITZER DISTRIBUTORS

Gentlemen:

In accordance with requests we have had from the field, we have had a limited number of special set screw wrench sets made up to fulfill this requirement.

These tools, shown below, are available in sets of three; each set includes a #6, #8 and #10 Allen set screw wrench.

While wrenches are available, they may be ordered in sets to fulfill requirements in your territory, by Part No. 52058. Each set is priced at \$3.50 per set.

Each wrench is equipped with a straight Allen blade and one extra blade. The blade itself is held into place by 2 headless set screws so that it can be replaced in case of breakage.
