Micro Switches for Model 1250 Tone Arms

*Deleted by W-241*

1217

A Mounting Bracket is available for purpose of installing two Micro Switches in the Model 1250 tone arms circuit. This may be ordered as Part No. 54932.

This mounting bracket is designed to accomodate two (2) Micro Switches as are used for the Reverse Switch, Part No. 53809. This is a single pole, double throw, switch and in this application use only the normally open side of each switch. This will be affixed to Record Changer in same position occupied by the No. 53257 Switch Assembly.

Two slotted holes in the bracket permit positioning switches for good contact and with a normal amount of over travel in both the open and closed positions. This adjustment is made to comply with the travel of tone arm positioning shaft and pin assembly, Part No. 53755.

The items to make this assembly may be ordered or taken in part from your stock as follows:

<u>QUANTITY</u>	<u>PART NO.</u>	<u>DESCRIPTION</u>
1	54932	Mounting Bracket
2	53809	Micro Switch
4	73574-74	Screw, #6-32 x 1" Rd. Hd.
2	53603	Plate, tapping
4	73605-5	Lockwasher
4	29521	Washer

Where so desired these micro switches can be used as an alternate to replace present switch No. 53257 at current prices of parts indicated.
